Applicant's election of Group I reply filed on 12/14/2004 acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Grasso on 8/18/2005 and 8/24/2005.

The application has been amended as follows: cancel claim 23; and at line 19 of claim 1 before "longitudinal axis" delete "the" and insert – its --.

Further, the examiner notes that the application is in condition for allowance except for the presence of claims 14-22 to Group I non-elected without traverse. Accordingly, claims 14-22 been cancelled.

The following is an examiner's statement of reasons for allowance: The IDS filed 4/18/2005 contains prior art cited in a foreign search report and applicant's invention defines over the above cited prior art in that it fails to teach or suggest a system for treating medical implants comprising: a treatment chamber having an inside surface defining the inside of the treatment chamber, an outside surface, an entrance sized to allow medical implant to pass through it, a plurality of fluid passages, a compressible fluid supply in fluid communication with at least one of the fluid passages and an

elongated medical implant having a longitudinal axis, wherein the plurality of fluid passages are positioned and sized to create a buffer zone of compressible fluid between the inside surface of the treatment chamber and the medical implant positioned at least partially within the chamber when compressible fluid has exited the passages and wherein the plurality of fluid passages are positioned and sized such that when compressible fluid has exited the passages, the elongated medical implant positioned at least partially in the treatment chamber will spin about the longitudinal axis.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Brenda A. Lamb at telephone number (571) 272-1231. The examiner can normally be reached on Monday and Wednesday thru Friday with alternate Tuesdays off.
